CISS INK REFILLS

CISS (Continuous Ink Supply System) is an inking system for inkjet printers that consist of a large external refillable ink supply. It is a great investment for users who have been buying ink repeatedly by paying hundreds & thousands of rupees, because CISS ink supply is huge and economical. CISS vendors claim that users can save up to 95 percent (20-30 times less) of printing costs when compared to the use of inkjet cartridges.

Leveraa CISS Ink Refills are the combination of the best in the world Dye and Pigment based inks blended perfectly in state-of-the-art manufacturing facilities to offer a perfect rendition of flow and colour management. Leveraa CISS Ink refills are available for Epson L & M series printers at an affordable cost making the prints even cost effective than it was committed with OE supplies.

Leveraa CISS Ink refills are available in all 6 colours (Black, Cyan, Yellow, Magenta, Light Cyan & Light Magenta – 70 ml bottle packing) for Epson L series printers & Pigment based (Black-140 ml bottle packing) ink for M series Printers.
